

"Your Outsourcing Partner for Electronics Manufacturing"

## **Nimbus Technologies Announces New Manufacturing and Engineering Manager**

High Point, NC (March 17, 2003) – Nimbus Technologies Inc announced today the addition of Brian Tanguay to the staff as Manager of Manufacturing and Engineering.

"After a nationwide search, I am very pleased to have Brian Tanguay join us. I set out to significantly raise the level of experience and capabilities brought to this position and Brian clearly fills that vision. He has worldwide knowledge of both electronics original equipment manufacturer (OEM) companies and electronic manufacturing services (EMS) companies. Brian will be a valuable addition to our management team with a great mix of a sophisticated engineering background and a hands-on approach to operations, " said John Weir, President and founder of Nimbus Technologies.

Brian brings more than ten years of manufacturing and engineering experience from some of the finest technology companies in the United States. Brian has experience from Digital Equipment Corporation, Polaroid Corporation and most recently GN Netcom.

### **About Nimbus Technologies**
